Professional Experience

Dr Fok has over 30 years of experience in the infrastructure consultancy industry both in Hong Kong, mainland China and in Asia region. He managed, planned, designed, reviewed, assessed and supervised a wide range of multi-disciplinary mega-size building and infrastructure projects throughout the project development stages, from the early project concept formulation, detailed design to construction contract execution. Some examples are an enormous Eco-City at Dongtan (630 hectares), an extensive aluminium producing plant in Zhaoqing, a mega-size container freight station in Kwai Chung Terminal 4, West Rail, Shenzhen MRT Line 4, a huge factory in Shunde for producing power plant components, Deep Bay Link, Tsing Ma Bridge, Route 3 (Country Park Section), Chek Lap Kok Road and Railway Network, a bus depot at Ngong Shuen Chau, Kwun Tong Bypass, the Guangzhou-Shenzhen-Zhuhai Superhighway and an Singapore MRT underground self-defence station.

In parallel with his engineering work, he is active in dispute resolution matters. Apart from handling matters related to arbitration and mediation, he involves heavily in the teaching of alternative dispute resolution (ADR) methods. He acted the leading role of mediator in a demonstration video for the training of law school students of the City University of Hong Kong. As a Fellow of the Cheung Kong Centre for Negotiation and Dispute Resolution, he trained selected groups of law school students of Shantou University the practice of mediation and to prepare them for the International Mediation Moot held in Paris organized by the International Chamber of Commerce. He judged at the Vis Moot (East) in 2013 as well as the annual ADR Moot jointly organised by CIETAC and the law schools of Columbia University and City University of Hong Kong since 2010.
