

Technical Seminar on
Smart Road/Street Lighting – Crossing the Chasm

Details

Date :	12 th September 2017 (Tue)	Venue :	Chan Yat Mei Sophie Room,
Time :	6:30pm (Registration)		HKIE Headquarters, 9/F
	6:45pm - 8:00pm		Island Beverley, No. 1 Great
			George Street, Causeway
			Bay, HK

Programme Highlight:

Smart Road/Street Lighting has been gaining momentum around the world and is now crossing the chasm of early adopters to early majority. Lighting service providers' focus is no longer on experimenting with having some lights connected, but on mass scale data management, workflow / lifecycle management and integration with the larger scope of smart city. In the transformation towards smart lighting, Philips Lighting helps to make lighting operators' lives easier, not more complex and provides them the flexibility of choosing the best system for any given situation.

Speaker:

Victor Zhang, Director, Road & Street Systems, Philips Lighting

Victor Zhang is Director of Road & Street Systems at Philips Lighting with a responsibility covering APAC, Greater China, India, Middle East & Turkey, Russia, Central Asia, and Africa. Prior to joining Philips in 2013, Victor was an 18-year veteran of the telecommunications/IT industry. He holds a BSc (with Honours) degree in Electrical Engineering from the University of Toronto, and an MBA (with Distinction) from the University of Hong Kong. Victor is currently based in Singapore.

Medium of instruction:

English (with Q&A session in English & Chinese)
