

Seminar on the Major Revision of the Code of Practice for the Electricity (Wiring) Regulations (2015 Edition) and Case Sharing of Recent Electrical Incidents

Date, Time & Venue

16 October 2017 (Mon); 6:00pm - 8:00pm; 9/F Chan Yat Mei Sophie Room, HKIE HQ

Programme Highlights

The Code of Practice (CoP) for the Electricity (Wiring) Regulations (2015 Edition) was published on 31.12.2015. The objective of the CoP is to provide general technical guidelines on how to meet the statutory requirements of the Electricity (Wiring) Regulations. To facilitate members to understand the major revision of the said CoP, the Electrical and Mechanical Engineer of Electrical and Mechanical Services Department (EMSD) will deliver a presentation on highlighting the change. The speaker will also take this opportunity to share with us some electrical incidents occurred recently and suggest us the necessary measures to prevent the re-occurrence of electrical incidents of similar nature.

Speaker

Ir SIT Kin-ka, MHKIE

Ir SIT Kin-ka is the Electrical and Mechanical Services Engineer of EMSD. She has been working in the Electricity Legislation Division since January 2015 and her main duties include the handling of the technical issues in related to the CoP and conducting investigation of electrical incidents.
