

# HKIE Logistics & Transportation Division

## Technical visit to HKTVMall's Robotic and Automated Pick & Pack System at Tsing Yi

21 January (Monday) 2019; 3:15 pm - 5:00pm

Visit HKTVMall's Robotic and Automated Pick & Pack System

- 21 January 2019 (Monday) 3:15pm – 5:00pm
- HKTVMall Tsing Yi Logistics Center, 9/F, Mapletree Logistics Hub Tsing Yi 30 Tsing Yi Road, New Territories, Hong Kong

Organised by  THE HONG KONG INSTITUTE OF ENGINEERS  
香港工程師學會  
Logistics & Transportation Division  
物流及運輸分部

### Programme Highlights

The visit aims to provide a brief introduction on the operations of the HKTVMall with its warehouse equipped with robotic and automated pick and pack system, handling 30,000 products and processing more than 30,000 orders daily. HKTVMall moves its road towards “Online Shipping Mall” in Hong Kong with the joint efforts and persistence from HKTVMall and their 2,000+ merchants.

HKTVMall embraces a growing infrastructure with a strong platform, including a wide variety of product choices, tremendous browsing traffic and customers, and automated pick & pack system that can handle large volume of orders, and also logistics & delivery.

(Successful registration will receive details of the visit)

### Registration & Enquiries

This visit is free of charge and the number of participants is limited to 20. Applications will be accepted on a first-come-first-served basis and priority will be given to members of the HKIE LT Division.
