Technical Webinar - Critical Power Supply for Health Care

With the pandemic lasting over the past two years, no one can deny that a reliable and healthy power supply system for our healthcare facilities is essential for us to save the life of our patients and to win the battle against the virus. This seminar is specifically designed to understand the four most significant challenges for healthcare facilities: hospital resilience, people centricity, hyper-efficiency, and sustainability. It will leave attendees with an overview of how IoT technology deal with those challenges. Participants will also appreciate the knowledge and applications of new products and technologies in this critical power supply market nowadays.

Speaker: Ian Lee

Ir Ian LEE has over 30 years' experience in the building industry, specializing in building energy management. He started his career with extensive involvement in designing buildings and infrastructures in Parsons Brinckerhoff, then joined CLP Power to help customers as Account Manager and CLP Engineering as Project Manager for various energy and electrical related projects. Now, Ian is working in Schneider Electric as Solution Director to provide and promote digitalization and innovation solutions to customers.

He had been teaching as part-time or guest speaker in PolyU BSE for Project Design and Energy Management; in Victoria University for Customer Services; and in CUHK SCS for Project Management. He is at present a committee member of the HKIE Electrical Division and an active member serving CIBSE, ASHRAE, and EI in HK and Macau.

Technical Webinar - **Critical Power Supply for Health Care**

Registration

- ✓ This webinar will be delivered online using “Zoom Video Conferencing”
- ✓ Please register online at this link:

<https://forms.gle/c6MXfwNREGGib7AS8>

- ✓ Please provide a valid email address and the name you want to appear on your CPD certificate.
- ✓ The webinar link will be emailed to you one hour prior to the start of the webinar. Just click the link to join.
- ✓ CPD certificates will be emailed to those who have attended at least half of the session.
- ✓ The deadline for registration is 10 April 2022. Successful applicants will be notified separately.
