Issue(s) to be published	October 2018

### Part II: Please provide the activity details for publishing on the Online Pink Pages, eg:

#### Programme title and organiser(s)

Technical Seminar on Feed-in Tariff Scheme

#### Date, Time and Venue

6 November 2018 (Tuesday), 6:30pm-8:00pm, Sophie Chan’s Seminar Room, 9/F HKIE Headquarters

#### Speakers

Dr. CY Chan – Analytical Engineer, Asset Management, CLP Power Hong Kong Limited

Ir WK Leung – Head of Customer Business Development, The Hongkong Electric Company Limited

#### Programme highlight

The seminar will cover details of the Feed-in Tariff (FiT) Schemes of both power companies, including eligibility, application flow and technical requirements. Engineering design and environmental considerations (e.g. arrangement of metering, treatment of environmental attributes) for installation of renewable energy power systems, technical requirements of grid connection for renewable energy system to the Power Company’s system and how to join the FiT Schemes will also be discussed. In connection with the FiT Schemes, the schemes on renewable energy certificates (RECs) will also be introduced.

#### Registration details (e.g. contact and fee)

Prior registration is required. This technical visit is free of charge and max. no. of participants will be limited to 80. Please complete the online enrolment form and apply via the website of Environmental Division (<http://ev.hkie.org.hk>). Attendance certificates will be issued. For enquiries, please contact Ir Jacqueline Chan at 3143 3879
