

Technical Seminar on
Save Energy & Enhance Occupant's Well-being via Control of Electrical & Natural Light

Details

Date :	26 Nov. 2019	Venue :	Chan Yat Mei Sophie Room,
Time :	6:30pm (Registration)		HKIE Headquarters, 9/F
	6:45pm - 8:00pm		Island Beverley, No. 1 Great
			George Street, Causeway
			Bay, HK

Programme Highlight:

Since 2015, Hong Kong government (EMSD) has made automatic lighting control as mandatory in new and major retrofit projects. Despite meeting BEC's basic requirements, many clients are seeking new technologies to further enhance energy efficiency and enhance occupants' comfort toward high-performance buildings.

This presentation will explain implementation of electrical and natural light control solutions, as per BEAM Plus's requirements, with introduction of technologies that not only contribute to credits earning but also improvement of user's health and well-being in new and existing buildings.

Speaker(s):

Mr. Patrick Yam, National Sales Manager – Energy Solutions

Patrick Yam is LUTRON's sales manager specializing in energy-saving system for control of electrical & natural light. He has over 10-year of experiences in design and installation of integrated light management and automated shade systems for projects in Hong Kong and mainland China, including BEAM Plus, LEED and WELL certified installations. In 2009, Patrick Yam obtained his qualification of LEED Accredited Professional (LEED AP) and has been invited by various professional associations as guest speak to share his experiences in sustainable design.

Medium of instruction:

Cantonese with English supplement to the technical term
